

PREDICT MILLION VOTES WILL BE CAST IN OHIO TODAY

AGRICULTURE IS HOOVER AIM

Elected President He Will Seek to Found Large Farm Co-ops

AIMS SURPLUSES CAUSE LARGE LOSS

Means To Find Means for Systematic Marketing of Major Crops

University, Cal., Aug. 14.—The election of "big business" into the conduct of American agriculture will be Herbert Hoover's first contribution to the solution of the farm problem, should he be elected president, it was predicted here today.

It was predicted that agriculture has suffered unnecessary losses through business methods. Hoover will organize American farmers into a series of cooperative organizations, for each major crop, in an effort to eliminate waste, improve marketing conditions, reduce cost of production and distribution and secure farm profits. He is certain, it was learned, that proper business management of agriculture will go far in eradicating agricultural depression.

Hoover recommends farm board.

Hoover farm relief program, however, will include recommendations to congress for the creation of a farm board, backed by at least \$100,000,000 of government funds, to regulate and control the production of surplus crops. In his acceptance speech, he also pledged the support of inland waterways to reduce transportation costs, and the reduction of tariff rates on farm products to give the farmer the protection enjoyed by inland waterway products.

Republican nominee declared "farm problem" of the country to be to devise "some kind of cooperative lines that will enable him to protect his surplus." In a talk to newspaper reporters about his speech, Hoover told of an incident in the New York fruit market, which illustrated the necessity for injecting business methods into the agricultural situation.

Fruit Market Glutted

Today, he said, 5,000 cars of fruit reached New York City from California and 5,000 more from Michigan.

Lowden Stand On Hoover Is More Friendly

Chicago, Aug. 14.—The comment of Gov. Frank O. Lowden, of Illinois, on the acceptance speech of Hoover today was viewed by political leaders as a sort of endorsement of the Republican presidential nominee.

Lowden, recognized leader of the western farm belt, has resigned a virtual retirement since his election to the governorship at a convention that went on for several days, and his speech was a surprise to many.

Lowden and Hoover, former lieutenant governor and now head of the farm committee of the Republican party, broke a long-standing political silence and put the farm problem before the nation today.

"Am Much Impressed"

Mr. Hoover's acceptance speech as a farmer was the meat of the Lowden comment. It continued:

"My reference to agriculture, and my recognition of the agricultural situation as the most economic problem in our nation today is very real."

Lowden stated, I think a thousand times, that a general acknowledgment that the problem exists and that it is a problem, is the first step toward its solution. If there has been any recognition years ago, the agricultural situation would be very different today."

Not Out of Treasury

Mr. Hoover's aspirations to bring farm population up to economic level with other groups has my full approval, I think, however, it must be founded on a basis of fact. I have found practically that his home stabilization corporation may attain the object which it was created to accomplish if the corporation of stabilizing the farm commodity is distributed, the commodity involved is taken from the public market.

House Taken From Lodge Property; Plans Have Not Been Adopted

The contract for the general construction of the new Eagles home will be awarded Sept. 1, it was announced today.

The house on the Eagles' property, where the new home will be situated, was removed today and plans for the building of the new home are being rushed through in order to start work as soon as the contract is let.

The building committee of the lodge is considering several bids for the new home. Plans which have been received, and specifications of the home have not yet been adopted, but according to preliminary plans the home will be a two-story, fireproof brick building.

The Eagles' property where the new home will be built is situated between the Masonic temple and the American Legion home on McKinley ave.

Wife Kills Husband

Niles, Aug. 14.—Police today are searching for Grace Howard in the murder of her husband, Robert, following a quarrel in their Langley st. home last night.

Tract For Airport

Aug. 14.—Another milestone on the road of aviation's progress in Ohio was marked today when the action of city council in passing an ordinance authorizing the expenditure of \$7,000 for the purchase of a tract of 164 acres, two miles west of this city, as a site for an airport.

Slayer Of Teacher Confesses

Miss Jennie Meta Constance, 42, Peoria, Ill., school teacher, who was brutally murdered by a negro giving his name as David Shanks, who has confessed, police say.

MOB VIOLENCE IN SLAYING FEARED

Negro Who Confesses Murder of Teacher Is Protected by Authorities in Evanston

Evanston, Ill., Aug. 14.—Precautions were being taken today to prevent mob violence from snuffing out the life of David Shanks, the Chicago negro, who confessed last night to the murder of Miss Jennie Meta Constance, 42-year-old Peoria school teacher and summer student at Northwestern university.

Evanston's "worst crime in a decade" became solved when detectives traced a wrist watch, which had been torn from the school teacher's arm after the attack, to Shanks. He was working in a shoeshining parlor when arrested. Confronted with the evidence, Shanks said: "Yes, I did it."

He was rushed to police headquarters, where, before citizens generally knew of his arrest, his confession was taken down in detail. He was then held away in an outlying district as a precaution against lynching.

The watch was traced in this manner. When it was definitely established that Miss Constance had worn a watch the night of her disappearance, police notified all jewelers to be on the lookout.

Jeweler Tells Police

Early yesterday a white boy took a lady's wrist watch to a Devon ave. jeweler to have it reinitialed. It bore the letters J. M. C., representing Jennie Meta Constance. The jeweler got in touch with police and the watch was identified as that of Miss Constance.

Miss Constance, head of the English department at Bradley Polytechnical institute at Peoria, was clubbed to death a week ago tonight as she was returning to her rooming house from Northwestern university campus library.

Denies Attacking Woman

Her body was found behind a hedge surrounding the palatial home of Atty. George R. Peaks, Evanston millionaire. She had been clubbed to death with a piece of lead pipe, and her body mutilated. Finding of her empty purse and other evidence indicated her attacker had also robbed her.

In his confession, Shanks said he went to Evanston from Chicago last Tuesday evening with the intention of waylaying and robbing some woman. He denied that he had attacked the victim.

70,000 TRAINMEN IN STRIKE VOTE

Wage Increase Approved By Union But Working Rules Are Snag

Cleveland, Aug. 14.—Seventy thousand railroad employees are concerned in a strike vote which is to be taken today by the Brotherhood of Railway Trainmen and the order of Railway Conductors in western states.

The unions have asked wage increases, ranging from 10 per cent for yardmen to 18 per cent for trainmen and conductors. An attempt at arbitration was made at a meeting in Chicago last week, attended by representatives of the unions, a committee representing the railroads, and John Williams, of the federal board of mediation.

The railroads offered a 7 1/2 per cent increase, according to reports, and the unions, at sectional meetings today, will decide by vote whether they will stand by their original demands and strike according to A. F. Whitney, president of the Brotherhood of Railway Trainmen, with headquarters here.

The wage increase offered by the railroads was acceptable to the unions, but an agreement, which was made conditional, abolishing certain working rules, was not, Whitney said.

FARM LEADERS SILENT ON AL AFTER SESSION

Settle Will Issue Formal Statement Soon; Peek Lines Up Ag. Men

SMITH REFUSES TO APPROVE FEE PLAN

Makes Bid For Vote Of West But Stands On Surplus Control

Albany, N. Y., Aug. 14.—Convinced that he has won the support of farm leaders from various parts of the country because of his stand on farm relief, Gov. Al Smith today was to put the final touches on the address he will deliver one week from tomorrow in formally accepting the Democratic presidential nomination.

Although the ten farm experts with whom he conferred for five hours at the executive mansion yesterday left for their homes without announcing that they would publicly support him, the governor feels, according to his advisers, that eventually a majority of them will throw their strength to the Democratic ticket.

Two Are Republicans

Six of the ten farm experts who came here for a round table discussion of the agricultural problem with Smith are rated as Republicans. Two of them, Earl C. Smith, of Illinois, and Frank W. Murphy, of Minnesota, are delegates to the Republican national convention.

Smith is president of the Illinois agricultural association, with membership of 60,000. Murphy is chairman of the legislative committee of the corn belt committee of 22.

Refused to O. K. Fee

According to reports at the capitol today, two or three of the farm leaders made a futile attempt to induce Smith to take a decided stand in favor of the equalization fee as contained in the McNary-Haugen farm relief bill which was vetoed by President Coolidge.

The governor is said to have told them bluntly that he subscribed to the surplus farm commodity and assessing the cost on the group to be benefited, but that he would not take any definite stand now as to the details of such a plan.

Made Bid For Vote

Both Smith and the leaders insisted that farm relief and no politics had been discussed at their five hour conference in the executive mansion. The chief reason why the governor invited the experts to Albany, according to his close friends, was to make an open bid for the farm vote of the Middle West.

George N. Peek, of Moline, Ill., chairman of the corn belt committee of 22, was among the farm leaders who conferred with the governor. He announced recently that he would support the Democratic ticket.

ENGLISH RAIL WAGES SLICED DUE TO CRISIS

London, Aug. 14.—Every man employed by English railways—approximately 680,000 in number—from the executives down to the humblest station porter will receive a reduction in wage as a result of the financial crisis confronting the four great railway systems.

The men voted to accept a 2 1/2 per cent wage cut while the executives acted voluntarily in slicing their own incomes.

Wahabi Tribes Of Arabia On Warpath

London, Aug. 14.—Dispatches from Jerusalem state that the fanatical Wahabi tribes of Arabia are about to go on the warpath against British outposts in Mesopotamia.

It is reported that the tribes have the moral if not the active support of Ibn Saud, king of the Hedjaz, and extraordinary precautions are being taken by the British authorities in the near east to prevent a serious uprising.

Spectator Hurt

Lancaster, Aug. 14.—Oscar Smith of Utica, a spectator, is suffering from two fractured jaws and minor injuries to the face as a result of being hit in the face by a baseball bat which slipped from the hands of a batsman during a game here yesterday.

W. H. READ, 66, VETERAN MAIL CARRIER, DEAD

Oldest Postman Here Had Walked 160,000 Miles His 40 Years' Service; Funeral At 1:30 P. M. Thursday

William H. Read, 66, of Franklin ave., Salem's oldest mail carrier, died of angina pectoris about 5:30 p. m. Monday at Salem City hospital.

When Mr. Read started out on his mail route Monday morning he apparently was in his usual health. He was stricken about 9:45 a. m., went into the office of the Salem Tool company, Depot st., and told employees there that he was ill. He was rushed to the hospital, where death claimed him.

William H. Read, a son of Thomas and Mary B. Read, was born Aug. 2, 1862, in Salem, and had spent most all his life here and was widely known throughout this district.

Before entering the government service, he was employed by the Denning company, and then by the Henton & Hubbell Co., Chicago.

Forty years ago, March 1, last, Mr. Read began his duties as mail carrier at the Salem postoffice. At that time the office was located on Broadway, in the Brooks building, and there were seven people employed at the office.

During his years of service Mr. Read had walked about 160,000 miles. Last autumn he attended as a delegate the National Letter Carriers meeting at El Paso, Texas, and had the distinction of being the oldest carrier, from point of years in service, at the convention.

He was a member of the Church of Our Saviour and was always active in its interests. He had held the office of senior warden at different times, had been superintendent of the Sunday school, and a lay reader in the church.

Surviving are four brothers, C. T. and Robert R. Read, Salem; A. R. Read, Greenville, Pa.; Horace G. Read, Farrell, Pa.; and one sister, Mrs. Mary O'neour of Youngstown.

The funeral service will be held at 2:30 p. m. Thursday at the Church of Our Saviour, in charge of Rev. C. A. Roth. There will be a short service at the home at 2 o'clock; interment in Hope cemetery. Friends may call at the home any time Wednesday.

MAYOR BREAKS EVEN IN COURT

Volio Appeal Denied But Judge Reverses Ruling In McCartney Case

One decision by Mayor Phil G. Hiddeson was affirmed and a second was reversed by Judge W. F. Lones in the hearings of the appeals in two Salem cases in common pleas court at Lisbon Monday.

Hiddeson's judgment in finding Angelo Volio, 102 Broadway, guilty on a charge of possession of intoxicating liquors was upheld by the higher court and the case referred to the Salem court for execution of sentence and collection of the fine imposed, which was \$500 and costs.

Volio was arrested by Patrolman Ralph Steffer April 28. He pleaded not guilty to the charge, being defended by Atty. Nate Kauffman of Youngstown and appealed the case on Hiddeson's verdict.

The judgment of Hiddeson's court in the case of E. E. McCartney, Youngstown, who was found guilty on a charge of careless driving was reversed by Lones for the lack of insufficient evidence to convict.

Lones stated that "in order to show recklessness there will have to be evidence submitted to show that the defendant did not use ordinary care" and ruled that such evidence was lacking in overruling Hiddeson's decision.

McCartney was found guilty by Hiddeson on two charges, one parking in front of a fire plug, and the second of careless driving. The careless driving charge was preferred in an affidavit signed by a Salem man who alleged that McCartney had backed into his machine while he was parked on Main st.

Mayor Hiddeson today took exception to Judge Lones' decision stating that Judge Lones based his ruling on the state reckless driving ordinance while McCartney had been found guilty under a city careless driving law.

ROGERS CHEERS NEW HIGHWAY

Celebration Held Monday Night As Highway To Liverpool Opens

Completion of the East Liverpool-Youngstown inter-county highway through Rogers was celebrated at a mass meeting held in the community building at Rogers last night.

A crowd of more than 1,000 people gathered in the little village, delegations coming in automobiles from many parts of the county.

Former State Senator A. A. Galbreath was chairman of the meeting, and the address of welcome was given by Mayor H. D. Cope, former state representative.

The Rev. C. H. Shaddock, of the Rogers M. E. church, announced the invocation and music was furnished by a five-piece orchestra.

Mayor Cope said that 125 years ago there were only three roads in the county and these were Indian trails. Mr. Galbreath reviewed the campaign begun in 1913 to establish an inter-county highway between East Liverpool and Youngstown.

Frank Swaney, of East Liverpool, referred to the hook-up of roads in Columbiana and of the benefits that the eastern part of the county will derive from the new road. He said this new route forms a direct north and south connection with the Lincoln highway and the lake-to-ocean route.

He asked community support in the establishment of an airport in this county, declaring that the time is rapidly approaching when a county airport will be a necessity.

Friends Outing Is Set For Saturday

The annual outing of the Bible school of the First Friends church will be held next Saturday at Lake Placid, North Georgetown.

The members of the school are to meet at the church at 9 o'clock and transportation will be provided for those not having a way to go. Those unable to go in the morning and can go in the afternoon are to be at the church at 12:30 o'clock. Transportation will be provided.

There will be a basket dinner and sport events of various kinds for entertainment.

CHAUTAUQUA IN 1929 IS ASSURED

Salem is to have a chautauqua in 1929.

It was announced today that the required number of guarantors, 299, have signed the contract, thus assuring the return of the chautauqua next year.

H. D. Hinton, the superintendent, and Miss Ruth Zimmerman, who was in charge of the Junior Town work, left Monday night for Xenia, where the Redpath chautauqua will open Wednesday.

Gen. Coxey Pinched For Speeding; Fined

Lorain, Aug. 14.—"Gen." Jacob S. Coxey, of Massillon, famed as the leader of Coxey's army, and now a candidate for the Republican senatorial nomination, was given the election today with \$16.20 less than he had yesterday.

Coxey paid a fine in Avon Lake traffic court last night. "They used to tell us to move on and now they pinch you when you drive fast enough to keep out of the way," he complained.

Signal Fires Warn People

Bombay, India, Aug. 14.—A mighty chain of signal fires, stretching 140 miles along the ridges of the Karakoram mountain range to Leh in the Himalayas, today gave warning to thousands of persons to flee from their homes to avoid death in the rushing torrent from the broken Shyok river ice dam.

When the dam gave way 700,000 tons of water swept with a roar of thunder down the Indus valley from the mountains, spreading desolation in its path.

As this gigantic tidal wave crashed its way toward the Kashmir plains, municipal and military authorities united in measures to warn (Continued on Page 4)

Woman Robbed and Scratched While In Car at Penitentiary

Columbus, O., Aug. 14.—"Audacity," declared Mrs. Fannie Cavender, 54, Toledo, "is too mild a term"—and grimly surveyed a severely scratched arm.

Mrs. Cavender's wrath is justified, police opine, for a thief selected the Ohio penitentiary—of all places—to pilfer the contents of her pocketbook.

As Mrs. Cavender waited in her car outside the "big house" wherein a party of friends were making a sight-seeing trip, a man approached the machine, demanded money, grasped a \$5 bill from her purse and ran after inflicting a deep scratch on the woman's arm.

A police search for the man proved futile.

DAM GOES OUT; MIGHTY FLOOD SWEEPS INDIA

Planes and Signal Fires Warn Natives of Waters Raging On Frontier

Simla, India, Aug. 14.—The mighty flood which is raging down the Indus valley from the broken ice dam in the Shyok river on top of the Karakoram mountains in northwest India threatened today to cut off the entire frontier region from the rest of the country.

The torrent was rushing towards Skardo and is expected to reach the Attock railway bridge spanning the Indus tonight. Engineers are working feverishly to strengthen the bridge as its collapse would isolate the frontier region.

Villages below the flood level are evacuated.

Villagers Jam Roads

Frightened villagers, bearing as much of their household goods as they can carry upon their backs, jam the roadways leading from the danger zone. A stream of refugees is pouring into Peshawar.

Elaborate precautionary measures have been taken by the police and soldiers to get the people out of the district in the path of the flood. Royal air force aviators swept down the Kabul valley warning villages along the river.

Some aviators kept pace with the flood notifying the authorities of its progress.

Long List On Ballots

Nominations will be made today for governor, N. S. senator (two to be chosen by each political party), lieutenant governor, secretary of state, treasurer, auditor, attorney general, judge of the Ohio supreme court (two to be selected by each party), congress, state senator, common pleas and probate court judges, clerks of common pleas courts, sheriffs, county commissioners, county treasurers, surveyors, coroners and county prosecutors.

Ohio voters also will elect members of Democratic and Republican state and county central committees today.

The wet-dry issue and the question of public utility regulation featured the pre-primary campaign of candidates for the G. O. P. gubernatorial nomination.

GENE TO MARRY POLLY IN ITALY

New York, Aug. 14.—Under the romantic skies of sunny Italy Gene Tunney will marry the beautiful Mary Josephine "Polly" Lauder.

As a pleasing interlude to the former pugilist's walking tour through Europe with Thornton Wilder, the novelist, the marriage ceremony will be performed far from the prying eyes of an inquisitive American public, it was learned today.

"Gene" will sail August 16. Miss Lauder, heiress to the Carnegie millions, will sail at a later date.

And so was confirmed the report that Gene would not marry before his departure for foreign shores. This had already been reported on authority of members of a group of important personages who banqueted the neophyte social register at one of those terribly exclusive dinners.

May Offer Reward For Girl's Kidnap

New Lexington, O., Aug. 14.—Prospects of the posting of a reward for the apprehension of Grover C. Hardin, 37, of Chillicothe, alleged to have abducted Opal Gower, 14-year-old schoolgirl, loomed today.

Opal was picking blackberries along the road near her home here yesterday when Hardin kidnaped her, according to reports, and it was believed probable today that relatives of the missing girl will offer a reward.

600 VOTES CAST UP TO NOON IN PRECINCTS HERE

Early Voting In Salem Is Fairly Heavy For G. O. P. Primary

STATE VOTES MAY SET NEW RECORDS

Interest Centers In Race For Governor Choice On Both Tickets

With approximately 600 votes cast up to noon today, it is estimated that between 1,500 and 2,000 votes and possibly more will be cast in Salem and township precincts before the polls close at 6:30 tonight.

Voting was fairly heavy in each precinct and the total may surpass expectations due to the keen interest.

Less than 100 of the total votes cast this morning were Democratic, the Democrats showing a lack of interest due to the lack of contests on the ticket.

Voting in other sections of the county is reported strong. East Liverpool had an estimated vote of 1,600 up to noon and is expecting a day's total of about 4,000. Lisbon voting is reported heavy. Wellsville had approximately 400 votes for this morning.

Huge State Vote Expected

Columbus, Aug. 14.—Ohio voters today are casting their ballots at statewide Democratic and Republican primary elections.

Nominations are being made at the polls for state, congressional, legislative, judicial and county offices. The nominees will make up the state tickets which will be submitted to Buckeye State voters at the November election.

With interest in the race for gubernatorial nominations at fever pitch, election experts today voiced the opinion that between 900,000 and 1,000,000 Ohioans will vote. Approximately 700,000 votes were cast at Ohio's primary two years ago. With fair weather forecast for the day, state election officials expressed belief that from 600,000 to 650,000 Republicans and from 250,000 to 300,000 Democrats will go to the polls throughout Ohio today.

BEWARE OF PROPAGANDA

There is afoot a new campaign for cancellation of Europe's war debts, or at least the war debts which European powers owe Uncle Sam. This is indicated by formation of the "American Association Favoring Reconsideration of the War Debts, Inc.," with headquarters at the home of Frederick W. Peabody, Ashburnham, Mass. Mr. Peabody is one of the world's chief cancellists.

There has been issued by this association a pamphlet which is called an "argument for fair adjustment," written by Henry Bourne Joy, prominent in the manufacturing and financial world. This so-called argument is a re-hashing of the old "common cause theory of loans to the allies, with a few modifications and variations.

Like all the others supporting the "common cause" theory, Mr. Joy neglects to mark the distinction between the loans during and after the war, though any such distinction plainly sustains the belief that the debt agreements already have cancelled the actual war debts and cover only loans made after the signing of the armistice.

In an attempt to show that Uncle Sam really is Uncle Shylöck, Mr. Joy calculates interest that the United States pays on money borrowed to lend to the allies at three per cent, although four and a quarter per cent still is being paid on the large amount of Liberty loans outstanding. Such a line of argument by no means strengthens the cause Mr. Joy advocates.

The pamphlet is not a calm, dispassionate discussion of the question in the light of all the facts. It is plainly propaganda and largely bunkum.

MEEKER, THE COMMUTER

Once a pioneer, always a pioneer. This apparently is the motto of the perennially youthful Ezra Meeker, who is about to set forth across the continent in a covered flivver, over the same Oregon trail that he has followed so often before.

For a mere youngster of 97, Mr. Meeker is indefatigable. No sooner has he crossed the continent by one mode of locomotion than he is keen to attempt another. Last year it was by airplane. This year, Mr. Meeker wishes to stick closer to nature, and so is to use a special car presented to him by Henry Ford.

When a young man, Ezra Meeker trekked across the continent behind a covered wagon drawn by oxen. That was his first pilgrimage. In the days of this writer's youth, Mr. Meeker again crossed the continent, following the Oregon trail, once again in a covered wagon, drawn by a team of oxen. Then came his airplane tour.

As a traveler, Mr. Meeker is outdistancing the contemporaries of his children and grandchildren. There has been developed in this country, to be sure, a host of motor campers who yearly flit about on the trails of the early pioneers. But none of them has the advantage of having traveled for nearly a century.

Some day a statistically-minded person will compute the distance which the average pioneer covered in the course of his goings to and fro, both on the long treks and in working about the various farms which he opened up.

In the case of Ezra Meeker, however, further computations requiring the services of several adding machines will be necessary. If he continues his present custom, he will be listed, when he reaches his 100th birthday, in 1931, as a transcontinental commuter.

What Others Say

DANGER IS FORESEEN

An interesting question of constitutional law and practice was raised in the senate last April and it will undoubtedly be further debated when congress reconvenes. It was that of the right of congress, through appropriations, to restrict the president in the exercise of his constitutional right to direct the movements of the army and navy. The occasion for the raising of the question was the contin-

ued maintenance of American marines in Nicaragua. The vote taken then sustained the president in his endeavor to fulfill the terms of the Stimson agreement. But, on the larger question, it was indecisive, since many who voted against the Blaine amendment did so on grounds extraneous to the constitutional question. It is this which warrants the belief that congress will continue debate on the larger question.

Congress, has by the terms of the constitution, the sole right to declare war. It also is the appropriating authority. The president, however, has the right, as chief executive, to direct and conduct our foreign relations, and, as commander in chief of the army and navy, to direct the movements of the military forces of the United States. In the direction of our foreign relations he can bring about a state of affairs which will virtually force the hand of congress, bringing about a declaration of war. He also can enter into agreements, which need not be put in treaty form, and thus submit them to the senate, which require a certain employment of the forces of the United States. Thus, in a number of ways, he can present congress with an accomplished fact.

If the president has agreed to use American troops to supervise elections, for example, as in the Nicaraguan case, can congress interfere with the performance of the task undertaken by refusing the additional sums required to maintain the necessary force in the field? Constitutionally it can, but it would seem that it is apt to be moved by the same considerations as those which caused Senator Borah to vote against the Blaine rider to the naval appropriation bill. These revolve around the fact that the faith and honor of the country had been committed whether constitutionally and properly or not by the president and consequently it was necessary for congress to sustain rather than to embarrass him.

This means, in the last analysis, that whenever one organ of government is presented with an accomplished fact by another, it must be controlled in its action by what has been done, or what it has been agreed should be done.

In the immediate case the action of congress probably was necessary and justified. But such a doctrine, if accepted for the future, might lead to serious and unforeseen consequences.—Cincinnati Enquirer.

COUNTY FAIR

Though the season has opened in Ohio it is doubtful if people of today look forward to the county fair with the blithe emotions of anticipation that moved the hosts of former years, say 30 or 40 years ago. The old county fair, like the old gray mare, "ain't what she used to be." Maybe we are surfeited by amusements easily attained.

In the old horse-and-buggy days early morning found all roads leading to the county seat town lined with vehicles, moving through clouds of dust. Possibly the dust and the sweat and the inconveniences added zest to the day at the fair. Getting there and back was an accomplishment.

Something has happened since the old county fair days, something so tremendously progressive that there is no longer any sport in attending these exhibitions. Roads are dustless and smooth. Distances that once required plodding hours are now covered in 30 minutes. Travel is too easy now.

But how good a few mouthfuls of the old roadside dust would taste to people who have fond recollections of the old county fair.—Toledo Blade.

SOME WAYS TO STOP FALLING OUT OF HAIR

By Royal S. Copeland, M. D.
United States Senator, From New York, Former Commissioner of Health, New York City

There are many causes for falling hair. All of them go back to one chief factor—deficient blood circulation in the scalp.

Some of us have large blood vessels and strongly acting hearts. The blood is sent in a forceful stream to every part of the body including the tips of the fingers and toes and the crown of the head. With an abundant supply of rich, invigorating, life-giving blood, the hair thrives and grows apace.

This is not the case if Nature has been stingy in making the blood vessels. Nor is to be expected that a weak and feeble heart will send quantities of blood to the roots of the hair.

Ill health, late hours, loss of sleep and lack of exercise will weaken the action of the heart. Falling hair is merely a symptom of lowered vitality. Restore the tone and vigor of the body and the hair will stop falling out.

There is another factor and it is concerning that which I wish to enlarge upon today. Without the proper foods the hair cannot be well nourished.

When hair is burned, you recall what a pungent and disagreeable odor fills the atmosphere. That is due to burning sulphur, a generous ingredient in the structure of the hair.

The Stars Say—
For Wednesday, August 15.

By GENEVIEVE KEMBLE.

ALIVELY and important day is the forecast made from the very active stellar operations. There is promise of an unexpected change or journey, with developments unexpected and of far reaching results. The employment may be advantageously affected and new contracts and agreements call for close scrutiny, especially as to the signing of documents.

Those whose birthday it is may prepare for a year of important developments with probable change of environment and possibly of employment or business connections. In the latter, close scrutiny of documents and writings is enjoined.

A child born on this day may be versatile and talented despite certain restless and indecisive tendencies. It may succeed best in employment.

All the world revolves around the point where you stand now.—Glen

COLUMBIANA

A wedding of interest to Columbiana people occurred Thursday at Youngstown, when Miss Ada H. Rogers, daughter of Mr. and Mrs. S. C. Rogers, former local people, became the bride of Dr. Harry L. Otterson of Canton. Rev. A. G. Rupert of the Girard Methodist church, also formerly of Columbiana, performed the ceremony. The bride has for several years made her home with her brother, Wilbur Rogers, and family, at Massillon. Following a motor trip the couple will make their home at Canton.

Mr. and Mrs. John Barrow and son, James, Mrs. Ruth Lehman and daughter, Betty, Mrs. Elizabeth Decker, Mr. and Mrs. Clarence Shontz and daughter, Anna Mary, Mr. and Mrs. Evan Roller, and Mr. and Mrs. H. R. Riddle and son, have returned home after a vacation of two weeks spent at Linwood Park, Vermilion.

Rev. and Mrs. Dwight LaFollette and baby of Acton, Mass., and E. T. Clapp of Spencer were Sunday callers at the home of Mr. and Mrs. C. B. Clapp and family, North Elm st.

Rev. C. F. Jones was the speaker at the union services Sunday evening at the Christian church. The interior of the edifice presents a pleasing appearance following its recent redecoration.

Mr. and Mrs. O. B. Chamberlain and daughter, Frances of Nitro, W. Va., visited over the week-end with Columbiana friends and relatives.

Henry Sider left to Butler, Pa., where he will spend several days with Mr. and Mrs. George Morrow and family.

Mr. and Mrs. W. H. Baughman are visiting for several days with relatives at Vandergrift, Pa.

Miss Mildred Lodge of Alliance is spending her vacation at the home of her parents, Mr. and Mrs. David Lodge and family, Middle st.

O. B. Moore has returned home from a business trip to Springfield, Dayton and Columbus.

Miss Miriam Decker of Toledo is visiting with her grandmother, Mrs. Elizabeth Decker, Pittsburgh st.

Mrs. C. A. Richardson and son, Dick motored to Geneva-on-the-Lake and spent the week-end with Mr. and Mrs. T. H. Byland.

Mr. and Mrs. O. F. Harold and son, Clyde, and Mr. and Mrs. Lee Harrold and daughter, Rosalyn, spent Sunday on a motor trip to the lake.

Mrs. Mary Tullis and Mrs. Frank Kyser spent several days last week at Chippewa Lake, where they visited with Perry Kyser and Donald Slagle.

Ray Messersmith is employed at the local postoffice during the vacation periods of the regular carriers. Hosea Shaffer and Herbert Schlag.

The Misses Bertha Shontz and Florence Hively are spending the week at Conneaut Lake.

Mrs. Mary Underwood and daughter, Ruth of Dover, N. J., are visiting with Miss Helen Keller at the Keller home, South Main st.

When we think of foods too many of us recall merely the proteins, fats and carbohydrates. We forget about the essential minerals. That is one of the pathetic defects of our education. The habits of civilization deprive us of many important things. One of them is the increasing lack of mineral elements in the diet. Mineral starvation is all too common in America.

Sulphur is a mineral we rarely hear about, but for the maintenance and repair of certain tissues, particularly the hair, an abundance must be had. Without it the body must suffer and, so far as the hair is concerned, there cannot be health and adequate renewal.

There are certain foods, particularly rich in sulphur. They are lean beef, eggs, milk, wholewheat bread and crackers, oatmeal, beans, peas and potatoes.

It must be remembered that the outer covering of the cereals and vegetables contain the chief mineral supply. They must be permitted to escape in steam and not be poured off, carrying away the dissolved minerals.

Try to add to your sulphur intake and give your hair a chance. Improve your general health and permit the hair to resume its activity. Locally stimulating applications to the scalp will give temporary increase in the blood supply and thus help the growth and strength of the hair. To this end the various electrical and light treatments are useful.

Answers to Health Queries
F. D. G. Q.—What do you advise for acne?

A—Correct the diet by cutting down on sugar, starches and coffee. Eat only simple food. Almost always constipation or at least sluggish bowel movements are present. This should be corrected. Exercise is essential. For particulars send a self addressed, stamped, envelope and repeat your question.

LEETONIA

The seventh annual reunion of the Groner family was held on Sunday at Eagleton's glens. There were about 100 present, from Arcadia, Cambridge, Struthers, Youngstown, Niles, Massillon, Salem, Lisbon, East Palestine, Wellsville and Leetonia. At 12:30 a picnic dinner was served, after which the business meeting was held. President W. S. Groner, called the meeting to order. Dorothy and Frances May Shontz of Massillon, recited "Little Orphan Annie." The officers were all re-elected and are: President, W. S. Groner, Leetonia; vice president, James Groner, Salem; secretary and treasurer, Mrs. Charles Shrader of Struthers.

It was voted to hold the next reunion on the second Sunday in August 1929 at Kelley's park.

During the last year there were five deaths in the family and one birth. The oldest person present was Mrs. Lou Miller of Lisbon, who is 80 years of age.

The Albright family reunion will be held Wednesday at Pelee Valley park.

On Saturday the annual reunion of the Dicke family will be held at Kelley's park.

Mrs. Dicke and son-in-law, Charles Albright and son of Salem, were guests of Mr. Albright's daughter, and her husband, Mr. and Mrs. W. R. Elwonger over the week end.

Mr. and Mrs. James Manse and daughters Constance and Vivian; Mr. and Mrs. George Myers and daughter, Miss Theresa Myers, motored to Justice on Sunday and spent the day at the home of Mrs. Manse's parents, Mr. and Mrs. John Kiffard.

Miss Helen Holland was a Youngstown visitor on Saturday.

Mrs. Carl Crawford of Youngstown is visiting here with relatives. On Saturday she was a Salem visitor.

FURTHER ROAD PLANS DRAWN

Section of Elkton-Clarkson Highway to Receive Surface Treatment

That section of the Elkton-Clarkson rd. between the East Liverpool-Youngstown rd. to Clarkson, a distance of probable one and one-half miles will be surfaced this year, according to plans just announced by the county commissioners. Bids are to be sought at once.

There will be no surfacing on this road between Lisbon and the intersection of the East Liverpool-Youngstown rd. until next spring, this latter project to be one of the first that will be awarded during the new year.

With the completion of the surfacing of the Lisbon-Salineville rd. within the next 10 days, Mellett & Weldner Co., contractors will immediately remove their equipment to the unsurfaced section of the East Liverpool-Youngstown rd. between Middletown and the Cox Highway. The East Liverpool-Youngstown rd. is now open to traffic from the south to Rogers.

Frank Cox, in charge of the rebuilding of the steel bridge over Beaver Creek at Gavers on the Lisbon-Salineville rd. announced today that this structure would be completed within the next two weeks.

It is possible that the new road to Clarkson will be surfaced within 30 days after the first concrete has been poured, which would mean that Clarkson would have an east-west outlet before October.

Reduce the Acid

In sick stomachs—instantly

Sick stomachs, sour stomachs and indigestion usually mean excess acid. The stomach nerves are overstimulated. Too much acid makes the stomach and intestines sour.

Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because it is harmless, tasteless dose neutralizes many times its volume in acid. Since its invention 50 years ago, it has remained the standard with physicians everywhere.

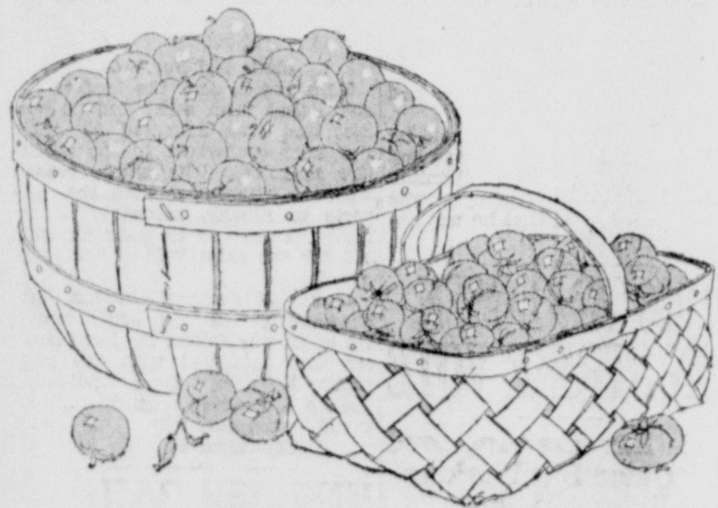

Take a spoonful in water and your unhappy condition will prob-

will always know what to do. Crude and harmful methods will never appeal to you. Go prove this for your own sake. It may save a great many disagreeable hours.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids; 25c and 50c a bottle—any drugstore.

"Milk of Magnesia" has been the U. S. Registered Trade Mark of The Charles H. Phillips Chemical Company and its predecessor Charles H. Phillips since 1875.

MOVE TO PROBE INSURANCE LOSS

St. Louis, Aug. 14.—Attorney General Stratton Shartel today took the first step looking toward the recovery of \$500,000 allegedly missing from the International Life Insurance company's funds, when he requested Attorney General Oscar Carstrom of Illinois to assist him in the present investigation now being made of the concern's affairs.

The discrepancies discovered in the search for the money have precipitated a widespread investigation of the finances of the insurance firm and of its president, Roy C. Toombs, of Chicago. Licenses permitting the company to operate in several states have been revoked, the latest state being Ohio, whose insurance department revoked the International's license late yesterday.

Airmail to Bring U. S. Business From Canada and Mexico

Chicago, Aug. 14.—Air mail has not only brought New York and the middle west within ten hours of each other with only 31 hours separating the Atlantic and the Pacific, but American business men will soon have overnight markets in Canada and Mexico.

According to the American Air Port association, before the first of the year it will be possible to send mail and express to Montreal and Mexico City by air routes.

The association points out that the good speed of the air mail will make the customer in Canada and Mexico write to American firms about the communication of "yesterday" and not "your letter of last week."

tion for governor, the wet-dry issue was injected.

Fever heat in connection with the prohibition issue was registered soon after the issuance by the Ohio Women's Christian Temperance Union of its "white list" and by Supt. E. J. Moore, of the Ohio Anti-Saloon League, of a "sample ballot." The list and ballot endorsed certain candidates as "satisfactory" and withheld endorsement from others.

The W. C. T. U. list and the Anti-Saloon League ballots endorsed Davey and Bloom. Although the League's ballot limited its endorsement among the Republican gubernatorial candidates, to Cooper, the W. C. T. U. list approved the candidacies of Begg, Shanley and Cooper.

Turner Fought League

Friends of Begg, members of the Anti-Saloon League, took vigorous exception publicly to the League's failure to accord its official endorsement to Begg. Supporters of Bloom urged the Anti-Saloon League to annul its endorsement of Davey who was accused of having "double-crossed" the league and with having approved the candidacy of Gov. Al Smith for president.

Throughout his campaign, Atty. Gen. Turner launched attacks upon the Anti-Saloon League and utility lobbyists and urged the repeal of the Pence act which relates to rates collected by public utilities from their Ohio customers. Turner charged that an improper alliance had existed between utility interests and members of the Anti-Saloon League with a view to controlling activities by the Ohio legislature.

Lady Astor Hoping For Modest Funeral

Plymouth, Aug. 14.—Lady Astor, M. P., has strong opinions on lavish expenditure at funerals.

"I am amazed," she has just told an audience of her constituents at Plymouth, "at the number of people in the world who just go through life putting by their little bit to be buried with. I always tell Lord Astor that I don't want him to spend a lot of my money on my burial."

"I would consider it a positive disgrace to have a fine funeral. Anything he has to spend he must while I am living, not when I am dead."

In an effort to save their fruit, he continued, the shippers sent several thousand cars up and down the Atlantic coast, destroying the markets in all nearby cities. One car, he added, travelled 17,000 miles and when it finally halted, the fruit was dumped into a sewer.

Hoover has become convinced that this sort of distribution and waste caused the farmers millions of dollars in losses every year. He will attempt to eliminate it by getting the farmers to organize nation-wide cooperatives to handle market, distribution and production problems.

If the producers of an entire crop could discuss their problems—just as furniture-makers, steel manufacturers, oil producers and other business men do—Hoover believes half of their losses could be eliminated. At least, he will give this method of relief a test—providing the farmers agree, as the government itself would only participate in an advisory capacity.

township was held in a woods in 1816 when Rev. Robert Semple of the Hartford, Conn. Presbytery, officiated. Later a church building was erected and Nov. 10, 1821 a Presbyterian congregation was organized by Rev. John Core of the same Presbytery.

There were nine original members of this first church, these coming from the families of Moses, Thomas and John Gilson, Henry Estep, Benjamin Anderson and Cornelius Sheehan. The first elders were Moses Gilson and Henry Estep.

It was on June 2, 1822 when the first sacrament was administered by Rev. James Robertson, who was assisted by Rev. Joshua Beer.

It is now recalled that this service was held in the woods and during the hour of worship a terrific storm swept over the territory. A tree was blown over and instantly killed Mrs. Jacob Shaffer and her child. Rev. Robertson for that occasion had chosen as his text: "Turn you to the stronghold, ye prisoners of hope; even today do I declare that I will render double unto thee."

Reference has also been made to another incident in the early church history of Knox township when in 1843 Rev. Joshua Beer was preaching from the text found in Revelations 3:29 "Behold, I stand at the door and knock." He was suddenly taken ill during his sermon, removed to his home, and a few days later died.

treasury. "In my judgment, Mr. Hoover's statement fails to give assurance of the means that will be adequate to secure the ends promised. He promises higher tariffs, waterway improvement and a farm board to set up stabilization corporations financed by government loans. This last proposal was the basis of the Crisp bill, which congress rejected in the last session and which failed to secure farm support.

Points To Deficiencies "Mr. Hoover says the tariff is the foundation of farm relief and promises to use his office and influence to give the farmer the full benefit of our historic tariff policy.

"For five years, western farmers have demanded not only that agricultural tariffs be adequate, but that a way be found to make such tariffs effective on that portion of our surplus crops consumed at home. On the latter, Mr. Hoover is silent. This question has been too much in the forefront of farm relief discussion to be ignored. Farmers will want this question answered before they go to the polls in November."

MOVE TO PROBE INSURANCE LOSS

St. Louis, Aug. 14.—Attorney General Stratton Shertel today took the first step looking toward the recovery of \$3,500,000 allegedly missing from the International Life Insurance company's funds, when he requested Attorney General Oscar Carlstrom, of Illinois, to assist him in the present investigation now being made of the concern's affairs.

The discrepancies discovered in the search for the money have precipitated a widespread investigation of the finances of the insurance firm and of its president, Roy C. Tombs, of Chicago. Licenses permitting the company to operate in several states have been revoked, the latest state being Ohio, whose insurance department revoked the International's license late yesterday.

Airmail to Bring U. S. Business From Canada and Mexico

Chicago, Aug. 14.—Air mail has not only brought New York and the middle west within ten hours of each other with only 31 hours separating the Atlantic and the Pacific, but American business men will soon have overnight markets in Canada and Mexico.

According to the American Air Port association, before the first of the year it will be possible to send mail and express to Montreal and Mexico City by air routes.

The association points out that the good speed of the air mail will make the customer in Canada and Mexico write to American firms about the communication of "yesterday" and not "your letter of last week."

Rev. Hume Stricken On Bellaire Visit

Bellaire, Aug. 14.—Attacked by acute indigestion while visiting friends here today, Rev. William C. Hume of Beach City, died a few hours later. Rev. Hume was 48 years of age, a native of East Liverpool.

Rev. Hume had served several eastern Ohio Methodist parishes, before taking the charge at Beach City. He arrived here yesterday to visit among friends made during his seven year service as a Bellaire pastor.

Tourists In Berlin Mostly Americans

Berlin, Aug. 14.—American again led all the other foreign visitors to Berlin during June, increasing their May record by more than 52 percent.

The total figure was 4,729. Similar reports of great increases in the number of American tourists come from all other points in Germany.

tion for governor, the wet-dry issue was injected.

Fever heat in connection with the prohibition issue was registered soon after the issuance by the Ohio Women's Christian Temperance Union of its "white list" and by Supt. E. J. Moore, of the Ohio Anti-Saloon League, of a "sample ballot."

The list and ballot endorsed certain candidates as "satisfactory" and withheld endorsement from others.

The W. C. T. U. list and the Anti-Saloon League's ballot endorsed Davey and Bloom. Although the League's ballot limited its endorsement among the Republican gubernatorial candidates, to Cooper, the W. C. T. U. list approved the candidacies of Beggs, Shanley and Cooper.

Turner Fought League

Friends of Beggs, members of the Anti-Saloon League, took vigorous exception publicly to the League's failure to accord its official endorsement to Beggs. Supporters of Bloom urged the Anti-Saloon League to annul its endorsement of Davey who was accused of having "double-crossed" the league and with having approved the candidacy of Gov. Al Smith for president.

Throughout his campaign, Atty. Gen. Turner launched attacks upon the Anti-Saloon League and utility lobbyists and urged the repeal of the Pence act which relates to rates collected by public utilities from their Ohio customers. Turner charged that an improper alliance had existed between utility interests and members of the Anti-Saloon League with a view to controlling activities by the Ohio legislature.

ticket because of Smith's stand on farm relief.

Peek Works For Al

It is understood that when Peek left the mansion he quietly told the governor that he would do his best to line all the other farm experts up for him.

William H. Settle, president of the Indiana Farm Bureau, intimated when he left the mansion that he would shortly make a public announcement as to whether he would support Smith. Settle led a delegation of farmers to Kansas City at the time of the Republican national convention and waged a bitter fight to prevent the nomination of Herbert Hoover.

Betsy Ross Club

A meeting of the Betsy Ross club will be held Tuesday evening at the hall, Main st.

A report of the province meeting will be given at this time and all officers and members are asked to be present.

The club will entertain the East Palestine and Lisbon units. Plans will be discussed for an open air meeting to be held the last Saturday in September. A lunch will be served.

'Eeney and 'Is Bride

Here's Tammie Heeney, the old "rock from down under," and his bride of a few days. She was formerly Miss Josephine Dunn, of Port Washington, L. I., and has known the fighter for nearly a year. They're going to visit Tom's home in New Zealand on their honeymoon.

Kidnaper's Victim

Ten-year-old Grace Budd, who has been missing from her New York home since early in June, when a suave and convincing stranger obtained her parents' permission to take her to a children's party. Police now believe it only a question of days before the kidnapers will be in their hands. The child is declared to be alive and well.

Lady Astor Hoping For Modest Funeral

Plymouth, Aug. 14.—Lady Astor, M. P., has strong opinions on lavish expenditure at funerals.

"I am amazed," she has just told an audience of her constituents at Plymouth, "at the number of people in the world who just go through life putting by their little bit to be buried with. I always tell Lord Astor that I don't want him to spend a lot of my money on my burial."

"I would consider it a positive disgrace to have a fine funeral. Anything he has to spend he must while I am living, not when I am dead."

BIG BUSINESS

Florida, although the city's demand totalled but 1,600 cars. As a result, he added, the New York market was glutted and prices collapsed. In an effort to save their fruit, he continued, the shippers sent several thousand cars up and down the Atlantic coast, destroying the markets in all nearby cities. One car, he added, traveled 17,000 miles and when it finally halted, the fruit was dumped into a sewer.

Hoover has become convinced that this sort of distribution and waste caused the farmers millions of dollars in losses every year. He will attempt to eliminate it by getting the farmers to organize nation-wide cooperatives to handle market. Distribution and production problems. If the producers of an entire crop could discuss their problems—just as furniture-makers, steel manufacturers, oil producers and other business men do—Hoover believes half of their losses could be eliminated. At least, he will give this method of relief a test-providing the farmers agree as the government itself would only participate in an advisory capacity.

Keep youth longer!

cleanse the system of poisons

Two of the great enemies to youth and vitality are delayed elimination and intestinal poisons. To keep yourself free from both these common difficulties will help you to stay young.

With the use of Nujol you can do it too. For Nujol absorbs body poisons and carries them off, preventing their absorption by the body. Nujol also softens the waste matter and brings about normal evacuation. It is harmless; contains no drugs or medicine. It won't cause gas or griping pains, or affect the stomach or kidneys. Every corner druggist has Nujol. Make sure you get the genuine. Look for the Nujol bottle with the label on the back that you can read right through the bottle. Don't delay, get Nujol today.

township was held in a woods in 1816 when Rev. Robert Semple of the Hartford, Conn. Presbytery, officiated. Later a church building was erected and Nov. 10, 1821 a Presbyterian congregation was organized by Rev. John Core of the same Presbytery.

There were nine original members of this first church, these coming from the families of Moses Thomas and John Gilson, Henry Estep, Benjamin Anderson, and Cornelius Sheehan. The first elders were Moses Gilson and Henry Estep.

It was on June 2, 1822 when the first sacrament was administered by Rev. James Robertson, who was assisted by Rev. Joshua Beer.

It is now recalled that this service was held in the woods and during the hour of worship a terrific storm swept over the territory. A tree was blown over and instantly killed Mrs. Jacob Shaffer and her child. Rev. Robertson for that occasion had chosen as his text: "Turn you to the stronghold, ye prisoners of hope; even today do I declare that I will render double unto thee."

Reference has also been made to another incident in the early church history of Knox township when in 1843 Rev. Joshua Beer was preaching from the text found in Revelations 3:29 "Behold, I stand at the door and knock." He was suddenly taken ill during his sermon, removed to his home, and a few days later died.

treasury.

"In my judgment, Mr. Hoover's statement fails to give assurance of the means that will be adequate to secure the ends promised. He promises higher tariffs, waterway improvement and a farm board to set up stabilization corporations financed by government loans. This last proposal was the basis of the Crisp bill, which congress rejected in the last session and which failed to secure farm support.

Points To Deficiencies

"Mr. Hoover says the tariff is the foundation of farm relief and promises to use his office and influence to give the farmer the full benefit of our historic tariff policy.

"For five years, western farmers have demanded not only that agricultural tariffs be adequate, but that a way be found to make such tariffs effective on that portion of our surplus crops consumed at home. On the latter, Mr. Hoover is silent. This question has been too much in the forefront of farm relief discussion to be ignored. Farmers will want this question answered before they go to the polls in November."

DUPONT GIVES \$50,000 CHECK

New York, Aug. 14.—Democratic national headquarters today received a check for \$50,000 from Pierre S. DuPont, chairman of the board of the General Motors corporation, who recently declared his support of Governor Smith.

The contribution is the largest received to date by the Smith campaign managers and is one of the largest political contributions ever recorded in any campaign.

Berlin's Season To Open May 12, 1929

Berlin, Aug. 14.—The proposal to establish "a season" in Berlin could not be carried out this year, but the first one has now been definitely set for the month from May 12 to June 12, 1929.

Its main feature will consist of special operatic and concert performances by Germany's most prominent artists. There will also be noteworthy art exhibitions.

the villages in the path of the torrent.

Crest 17,000 Feet High

The dam was upon the crest of a mountain wall, 17,000 feet high, which gave it a tremendous impetus.

An ice barrier had dammed an artificial lake blocking the Shyok river on the top of the Karakoram mountains for miles.

In addition to the flaming beacons couriers were sent posthaste by airplane and railway train to warn the people in the lower Indus valley. For some time the ice barrier had been growing weaker and the collapse did not take the authorities entirely by surprise.

The glacier lake was in an isolated position, being 140 miles from the Northeast Telegraph line.

Dear Friends:—

Did you ever try to wash a woolen blanket? I never did, myself, but I'll bet it would be an awful job.

But I certainly never would clean a blanket that way now—since I've seen 'em cleaned here at American Dry Cleaning Co.

Several nice woolen blankets have come in lately for dry cleaning and they certainly do look nice, after they come through the cleaning and steaming process.

The boss says that blankets ought to be cleaned frequently, both for cleanliness and sanitation. Doctors say so, too. Better call Number 557, and ask him about this blanket cleaning.

FEEL EFFECT OF STORM TONIGHT

Apalachicola Appears To Be In Hurricane Path As Barometer Falls

Jacksonville, Fla., Aug. 14.—Florida's coast between Pensacola and Apalachicola will feel the effects of the tropical hurricane which is sweeping inland sometime late today or tonight, the local weather bureau revealed today.

Apalachicola, with a barometer reading of 29.60 and a wind of 30 miles an hour seemed to be in the direct path of the storm. It was expected that the blow would extend westward and reach Pensacola, where a strong wind and a falling barometer were reported.

Mobile had a steady wind from the north indicating that the storm was east of that place. Tampa reported a 26-mile wind and rain during the night.

Much suffering was reported along the west coast due to heavy rains which accompanied the blow. The lowlands from Tampa north and south for miles was reported under water, but the damage so far was suffered mostly by farmers and public utilities.

COOLIDGE SENDS HOOVER PRAISE

Superior, Wis., Aug. 14.—The speech of Herbert Hoover accepting the Republican presidential nomination is a document ranking high in political discussion in the opinion of President Coolidge.

After thoroughly digesting the pronouncements of his secretary of commerce, the president today sent the following message of congratulation to the nominee:

"Your speech of acceptance ranks very high in political discussion. I congratulate you upon it and upon the reception which has been given it by the country."

CROATS STAGE OUTBREAKS AS PACT IS SIGNED

Vienna, Aug. 14.—Anti-government demonstrations were reported today from Croatia following the ratification of the Nettuno treaty by the Belgrade parliament.

This pact, which is really a collection of several agreements, was long the subject of stormy debate in the Belgrade parliament. The government wanted it ratified; the opposition, led by the members of the Croatian peasant party, opposed it.

There were no members of the opposition present when the parliament approved the treaty.

It was during debate over this treaty that a Montenegrin deputy recently shot two fellow deputies to death and wounded Stefan Raditch, the agrarian leader who died a week ago.

This treaty gives Italians the right to own land within 30 miles of the Adriatic coast. There are a number of other Italian privileges specified.

Harding Memorial Association Is Sued By Late Widow's Kin

Marion, Aug. 14.—Naming the Harding memorial association as defendant, a suit was on file here today on behalf of Jean DeWolfe and George Neely DeWolfe, grandchildren of the late Florence Kling Harding, President Harding's widow, in which they seek to recover certain household articles left in Mrs. Hardings estate.

Harry J. Merchant, trustee for the DeWolfs, filed the petition which asks the court to construe the will under which Mrs. Harding's estate was disposed of.

The petition declares the articles sought include table lamps, glassware, jewel cases and other items not in the list of household belongings specifically bequeathed to the Memorial association in Mrs. Harding's will.

Hottest Summer In Paris For 17 Years

Paris, Aug. 14.—The hottest summer Paris has seen for 17 years does not seem to dampen the ardor of American artists who are living in the capital. The end of what is called the season of art exhibitions is remarkable for the number of shows of the works of artists from the other side of the water.

At the Zak Gallery, near St. Germain des Pres and the celebrated "Deux Magots" cafe where all Americans drink their morning coffee, Louis Lezowick, a young American who has travelled all over the world and notably Soviet Russia, is showing his idea of the United States from where he hails. There are landscapes and views of cities in their most picturesque character, together with profiles or silhouettes of machines, such as "The Crane," "The Drawbridge," and a splendid "Port of Hoboken."

Roland Stewart, Professor at Wisconsin University has wandered through Europe and Northern Africa and put down his impressions in charming pictures of pleasant coloring which he is exhibiting at the Berheim Jeune Gallery.

Daisy Hughes is another American artist who has been in Northern Africa and her paintings are to be seen in the Galerie George Petit.

McCann School Has Its Alumni Reunion

F. J. Ward of Salem, was the oldest former student at the McCann's school reunion held Sunday at the schoolhouse three miles from Winona. Mr. Ward attended school there 71 years ago.

More than 250 were in attendance at this reunion, which was the first reunion the school has held.

Mrs. James Clement, of Kansas, a former teacher, was in attendance. Other were from Cleveland and towns in this district.

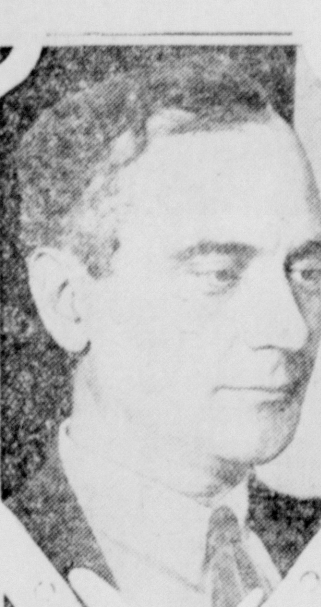

F. J. Ward read a letter from a teacher of this school who is 90 years old. She lives in Iowa.

The program was composed of these numbers: Selections by an orchestra composed of William, Frank and Archie Ward and George Woolf; vocal duet, Mrs. Edgar Derr, of Salem and Mrs. Della Humphrey, Cleveland; reading, Mrs. Jesse Galtbreath; song, Mrs. F. J. Ward, Salem. Several in the company gave talks.

Mrs. George Ramsayer, of Homeworth, who is one of the older teachers of this school had a roll call of her scholars. She had 42 and could remember all their names.

These officers were elected: President, E. G. Saffell, of North Georgetown; vice-president, Charles King, of Lewistown; secretary, Miss Mary Ward, Winona; treasurer, W. D. Ward, Winona. Next year the reunion will be on the second Sunday in August.

Yank Army Trucks Still Used In Paris

Paris, Aug. 14.—Uncle Sam's army trucks are still doing good service on French roads, ten years after the Armistice! Fifteen thousand of 'em and chances are they will last another ten years.

Eleven years of war and peace have not diminished their usefulness in the least. Compare this with the passenger cars left behind by the army. Of seven thousand odd cars, only a few are in commission today.

ETLESS RACING OR CALIFORNIA COFFROTH PLAN

Millionaire Jim Returns
to Try Out Plan Which
Has Failed Before

San Francisco, Aug. 14.—Return-
ing to the scene of his triumphs as
a promoter of betting bouts, James
Coffroth will attempt
to re-establish horse racing as a
rehabilitated sport.

Coffroth, who turned away from
the game when 20-round bouts were
banned in California, to horse-
racing at Tijuana, Mexico, just
west of the Mexican border, and
now the millions in his new life, will
attempt to put across a racing meet
in California. The millionaire horse
man has failed.

The initial try will be a 20-day
trial at Tanforan race track near
San Bruno, 20 miles south of San
Francisco. There a few years ago
the rich Californians who follow
the kings built a beau-
tiful grand stand, stables and
club house and held two meets.
They were unsuccessful. Sports fol-
lowers wagged their heads and said
"betless racing" could not be
made to pay.

Twenty Day Meet
But "Sunny Jim" Coffroth pro-
poses to do that very thing. In an-
nouncing that he would open the
meeting on Oct. 13 for a 20-day meet,
he emphasized that it would be a
"betless" meeting and would be
conducted "within the law."

The most recent attempt to open
the track witnessed an attempt to
establish the certificate system of
betting as legal in California. The
law was ruled against the promoters
and they decided not to
risk their money on a meet.

But Coffroth will not attempt to
establish this or any other form of
betting. He believes that high
class racing will attract a following
of around 20,000 persons in the bay
area and that the sport can be re-
established through the medium of
high class attractions. He hopes to
include the ten best horses in the
country in the meet to be held here
this fall.

It will precede the opening of his
Tijuana season and enable horse
men all over the country to en-
joy a longer season on the west
coast and thus induce them to send
their best westward.

Rebuilding Plant
Virtually the entire Tijuana
track management will come here
to conduct the meet for Coffroth.
He will personally direct it. Plans
have been made to put the Tan-
foran plant in the finest shape for
the opening of the season.

Coffroth's plan to re-establish
betless racing here has been
sympathetically received by San
Francisco sports writers who recall
the success of the fistie classics he
staged here and they indicate a
belief that he can put it over.

Efforts to legalize pari-mutuel
betting in California were defeated
last year. It is believed that Coff-
roth is basing his attempt to re-
open racing to the state on the ex-
pectation that "betless racing" can
be made to pay.

Litty Not To Return To School After Marriage

Herman Litty, captain-elect
of Salem High's varsity basket-
ball team for the coming season,
leading track star, and one of
the foremost gridiron prospects
for the 1928 season will not re-
turn to school this fall, having
entered into a contract which
will interfere with his returning
to school to represent Salem in
athletic competition.

Litty and Miss Viola Stanciu,
Salem High school graduate,
class of '27 were married at
New Cumberland, W. Va., Sat-
urday.

The event was a distinct sur-
prise to friends and a shock to
Salem High's hopes for a repe-
tition of past successful seasons
as Litty was regarded as one of
the king-pins in each activity
for this year.

He was figured on for a posi-
tion as half back or end on the
football team; in basketball he
was one of the few lettermen
left from last season's county
championship aggregation and
was captain of the team, while
in track he was a consistent
point maker in the high and low
hurdles and occasionally in the
javelin and discus.

His absence will mean that the
new coaching staff will be
more handicapped than ever in
searching through the ranks of
Salem athletes in their at-
tempt to maintain the calibre
of teams representing the school
during Coach Springer's reign.

Litty will continue his con-
nections with the Mullins
Manufacturing Corp.

By the time they emerge again in-
to the light of day, it may be that
Tilden's status as an amateur or
professional will be virtually de-
termined. Of course, you never
heard of an advisory committee that
was clothed with authority to com-
mand. However, this one is different
in two ways. First, six of its nine
members also are identified with
the executive committee, which
definitely will pass upon Tilden's
case on August 24. Second, this
meeting of the advisory committee
is so "regular" that perhaps as
many as 20 members of others may
be there in an ex-officio, or kibitzer,
capacity.

Is Closed Session
Judged upon surface indications,
today's conference, closed to the
outside world as definitely as
though the prime minister and his
cabinet were about to declare war,
will couple President Samuel H.
Collem and Joseph W. Wear, the
recently resigned Davis cup com-
mittee chairman, against the field.
They are the only out and out
Tilden men on the roster and the
presence of outsiders won't help
the situation, either. For the more U. S.
L. T. A. committeemen you drape
about the premises, the less Tilden
men you are likely to have at the
roll call.

Those on the advisory committee
who are believed to be anti-Tilden
in sentiment, if not in action, are
Louis J. Carruthers, Louis B. Dailey,
Jones W. Mersereau, Joseph W.
Thurston and Holcombe Ward.
Paul W. Gibbons and Harry S. Knox
are regarded as doubtful quantities
—on the fence, in other words,
ready to jump with the "cat." Of
those mentioned, only Mersereau,
Thurston and Ward are not mem-
bers of the executive committee
which is to sit in actual judgment
of Tilden on the 24th of the month.

EAST-WEST IN FINAL SERIES

Yanks Take On Chicago;
Cards Meet Braves
In Major Games

New York, Aug. 14.—The eastern
teams in the National League be-
gin their final invasion of the west
today and the western clubs of the
American League inaugurate their
last tour of the east this season.

The alleged reformation of the
New York Yankees, consisting
mainly of four straight victories
over tail-end Boston Red Sox, will
be put to the acid test when they
take on the Chicago White Sox.

Litty will continue his con-
nections with the Mullins
Manufacturing Corp.

The hard pressed St. Louis Car-
dinals should enjoy a breathing
spell while entertaining the Boston

Braves, but the second place New
York Giants have a hard row to
hoe in Chicago, where they have
won only one game this year.

The Athletics cut the Yanks' lead
to 4½ games yesterday when Lefty
Grove held Detroit to two singles,
winning 7 to 1.

Remy Kremer of the Pirates beat
Brooklyn for the third time within
a week, 6 to 1.

With Big Ed Morris on the mound,
the Red Sox handed Cleveland a 6
to 2 shellacking. The Mobile south-
paw is Boston's 1928 miracle man,
for he had won no less than 15
games.

The Cardinals are preparing to
recall star boarders from their vari-
ous baseball farms for the final
drive down the stretch. Ernest
Orsatti, Minneapolis outfielder who
looked like the real McCoy with the
Cards last fall, will be one of the
first prodigal sons to return.

Manager Rogers Hornsby of the
Braves is looking for players with
color and spirit and he has made

a good move in getting Outfielder
Henrie Mueller from Toledo in ex-
change for Eddie Moore. Der Hein-
will go to any lengths to win a ball
game. While with the Giants he
once was trapped off base but got
back safely by leaping into the aid
and blocking a thrown ball with
his jaw.

Burlie Grimes, the spitball
pitcher, cost Mueller his job with
the Giants. Hits made off Grimes
are hard to handle because of his
spitter. So after catching a short
fly with Burlieigh in the box,
Mueller carefully dried the ball on
his shirt to avoid making a wild
throw. A runner on third scored
with the winning tally by a city
block and a few days later Mueller
was playing with Toledo.

Wants Grid Games

Warren, Aug. 14.—The Craig-Mc-
Lain independent football team,
known last year as the Slaymon-
Hernon eleven, has reorganized for

the coming season and is ready to
book games at home for every Sun-
day, beginning Sept. 23. The War-
ren team will average 165 pounds
and games are sought with high
class clubs. Any one interested in
booking a game is asked to get in
touch with J. W. White, manager,
care Craig-McLain.

Crooksville Field Wells Struck Deep

The new oil and gas field at
Crooksville, O., has attracted some
operators from Columbiana coun-
ty, and R. C. Miller and his associ-
ates of Columbiana have reported
the bringing in an oil well that is
producing between 50 and 60 barrels
daily.

It is said that oil in this Perry
county territory is being struck at
a depth of 3,200 feet.

Miller has been active in the de-
velopment of the Fairfield town-
ship oil and gas field in this coun-
ty.

TENNIS FIGHT GETS AIRING

BY DAVIS J. WALSH
New York, Aug. 14.—Skirmishing
at short range, and maybe no range
at all, over the honor or something
of William Tilden was to commence
today when the advisory committee
of the United States Lawn Tennis
association was scheduled to go in-
to self-communion.

It will be only a "regular" weekly
meeting, we are told, but the un-
derstanding is that the Tilden mat-
ter will get quite an airing, if it
actually doesn't occupy the attend-
ing gentlemen to the exclusion of all
else.

By the time they emerge again in-
to the light of day, it may be that
Tilden's status as an amateur or
professional will be virtually de-
termined. Of course, you never
heard of an advisory committee that
was clothed with authority to com-
mand. However, this one is different
in two ways. First, six of its nine
members also are identified with
the executive committee, which
definitely will pass upon Tilden's
case on August 24. Second, this
meeting of the advisory committee
is so "regular" that perhaps as
many as 20 members of others may
be there in an ex-officio, or kibitzer,
capacity.

Is Closed Session
Judged upon surface indications,
today's conference, closed to the
outside world as definitely as
though the prime minister and his
cabinet were about to declare war,
will couple President Samuel H.
Collem and Joseph W. Wear, the
recently resigned Davis cup com-
mittee chairman, against the field.
They are the only out and out
Tilden men on the roster and the
presence of outsiders won't help
the situation, either. For the more U. S.
L. T. A. committeemen you drape
about the premises, the less Tilden
men you are likely to have at the
roll call.

Those on the advisory committee
who are believed to be anti-Tilden
in sentiment, if not in action, are
Louis J. Carruthers, Louis B. Dailey,
Jones W. Mersereau, Joseph W.
Thurston and Holcombe Ward.
Paul W. Gibbons and Harry S. Knox
are regarded as doubtful quantities
—on the fence, in other words,
ready to jump with the "cat." Of
those mentioned, only Mersereau,
Thurston and Ward are not mem-
bers of the executive committee
which is to sit in actual judgment
of Tilden on the 24th of the month.

Douglas Fairbanks

America's Motion Picture Favorite, as he will appear in his forthcoming production "The Iron Mask" says—

"I get more kick from the Lucky Strike flavor than from any other cigarette. They are easier on my throat and wind. That's why I smoke nothing but Luckies. Toasting really means a lot to me. My own experience has proven that toasting not only takes out the bad things but doubles the flavor."

MOVIES

"THE DOVE"

A renegade land, somewhere south of the equator where death sends no warning; where women live only for men; where men live only for the thrills; adventures and joys of living, where romance rides with head held high second only to the adventures that come with every setting of the sun.

That is Costa Riza, the mythical setting of Norma Talmadge's picture, "The Dove," which is at the Grand tonight.

In Costa Riza the word of one man is law; he is the ruler of everything in the small, unlawful community in everything except love—his admiration for a virtuous dancer is one characteristic over which he has no control. The girl refuses to return his affections, has nothing to do with him, and when an American steps into the scene and wins her, thrills and adventures with the romance are continuous.

The dancer is of course, Miss Talmadge; the all-powerful, Noah Beery and the American is Gilbert Roland.

"THE RACKET"

Newspaper reporters, bootleggers, hi-jackers, murderers, and one honest policeman against a host of dishonest politicians and upholders of the law "playing both ends" furnish the color in the satire on modern law enforcement in "The Racket," starring Thomas Meighan at the State tonight.

The comedy is furnished by a trio of newspapermen; thrills and action by the rest, while the whole affair combines to furnish for spectators at the show an interesting moral.

Meighan plays without a heroine; the show is better without one, for Meighan is an honest "copper" concentrating all of his efforts on "licking" his opponents which overwhelms him so tremendously.

Leading the battle against him is Nick Scarso (Louis Wolheim), a powerful bootlegger who in turn is battling for a corner on the booze market against another bootleg king, Henry Sedley. Every time Meighan makes an arrest, his criminal is released through political pull of "The Old Man," Burr McIntosh. Marie Provost, in a minor feminine role is

the only character of the opposite sex in a character role.

Newspapermen trying to scoop each other furnish another interesting element in the picture. These parts are played by Lee Moran and "Slicks" Gallagher, two veteran reporters, and John Darrow, a "greenie."

A comedy "Slick Slickers" and Pathe News are shown with the feature.

STYLE EDICTS

Paris, Aug. 14.—Low Oxford shoes of box-skin in natural color, trimmed with incrustations of reddish-brown leather, are the smartest things for sport wear at the French summer resorts. They are extremely durable and chic at the same time.

Comfortable shoes that are very smart are square-toed with a tongue of leather buckle over the instep. They make a long foot look shorter. "Ghille" shoes laced like a sandal across the instep are also much in vogue and come in colored leathers to match the golf outfit.

Perugia's new crepe de Chine sandals will make any foot look slimmer and lovelier. The curves described by their amusingly-cut straps are very new and the colors so bright one feels much like a gay tropical bird. They very often match the scarf.

Another smart bootmaker binds her crepe de Chine sandals with opalescent kid in matching tone. They come in lovely blue, blond, rose, mauve and almond-green and the quality is so good they last longer than satin.

For the beach nothing equals the Spanish espadrilles with their string soles. They come in all colors, in canvas, in printed, embroidered or woven fabrics, with silk cords or braided like Indian moccasins. They keep one from sinking into the sand and enable one to climb all kinds of high peaks.

Sandals made of strips of leather woven together are so cool and comfortable and becoming so popular that there are numerous little colonies of Serbs and Czechoslovaks remaining in the capital to make them.

Hellstern has some lovely, aristocratic looking ties and one-strap models with low heels for wear with the morning suit or sport costume. He also has some delightful evening sandals in satin and sober Patern brocades.

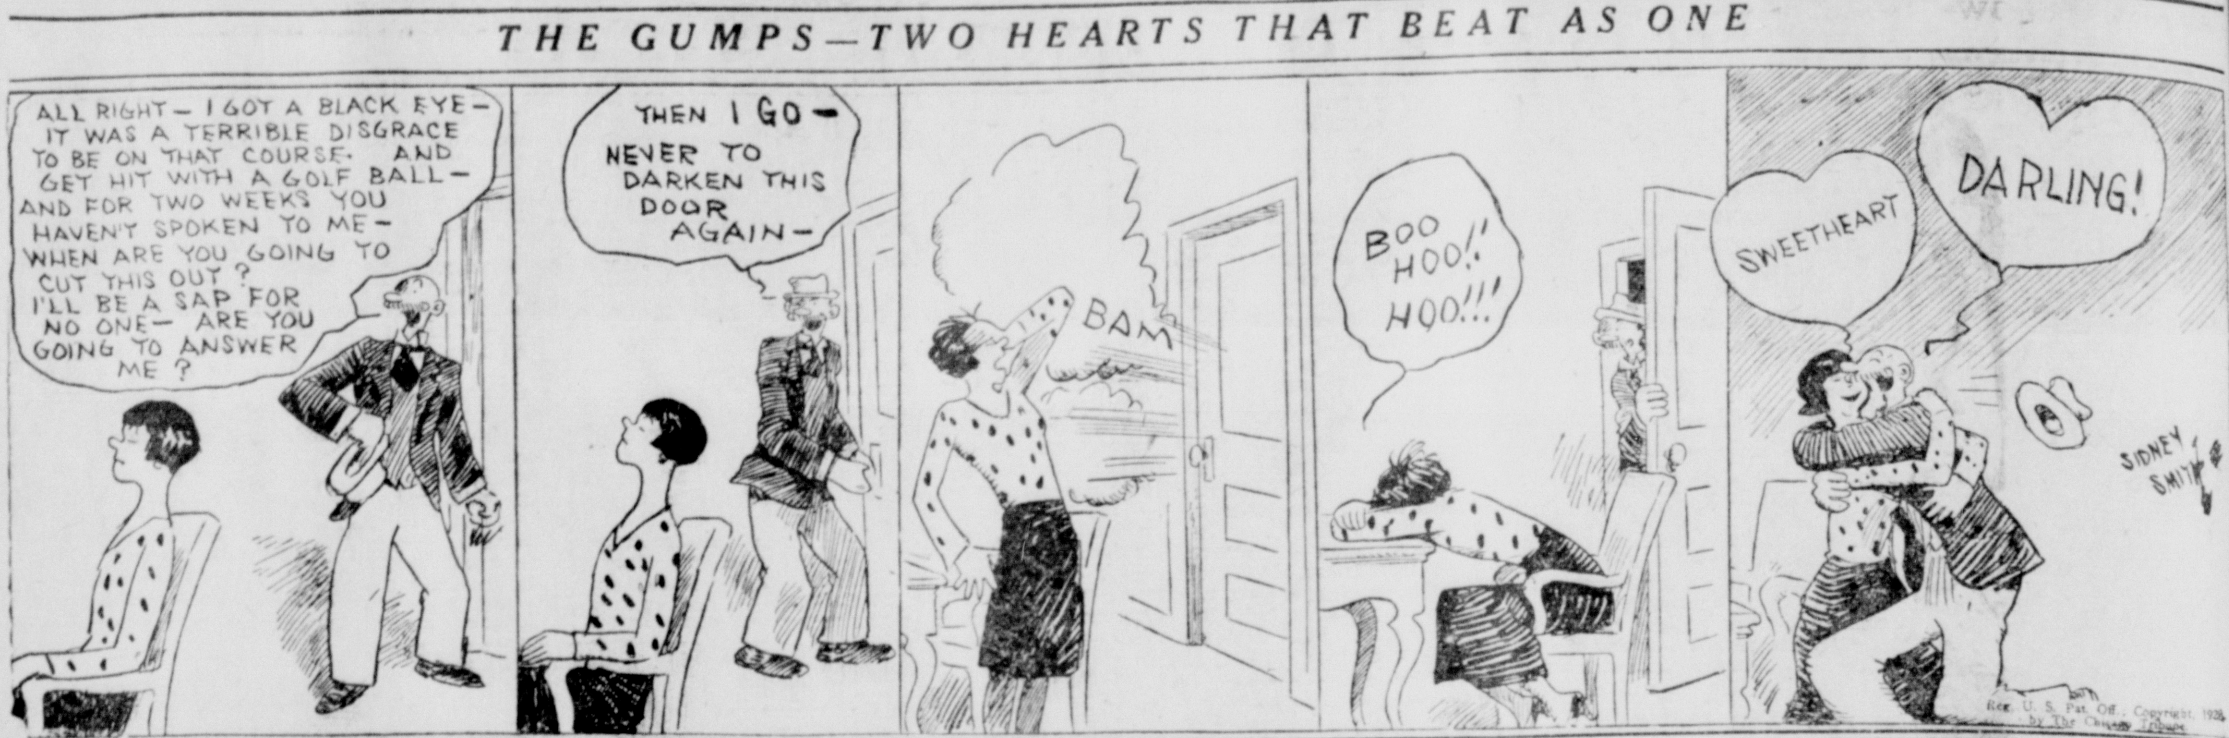

England Gives Yank Prize for New Rifle

London, Aug. 14.—A rifle invented by an American has gained the British government's \$15,000 award for the best automatic self-loading rifle.

Basically designed by General John Thompson, the small arms expert of the U. S. Army, the weapon has been manufactured and perfected by the Birmingham Small Arms company, noted small armaments firm.

The weapon is simple in construction and with it the ordinary British soldier will be able to shoot twice as many shots as he can now with the hand operated rifle, or about 35 shots per minute.

It is claimed by the British War office that this weapon, backed up by the modern machine gun, would be sufficient for any army to meet almost any requirement of modern battle tactics.

HOME-MAKING HELPS

Lamps and Shades for Artistic Effect

Lighting the home becomes more of an art daily. Glass lamps and shades, many inspired by those of the great artist Lalique, are more lovely than we have seen them.

The unwritten law is that the shade and base must be in perfect harmony of shape and coloring even if they differ in materials. No matter how delicate or rare a china vase

may be it can be prepared for wiring by an expert and a shade made to match. Many odd-shaped shades are usable with the electric fixtures that were impossible with oil or gas lamps, for they do not burn.

Hand-blocked materials are used for shades in silk, in thin linens and gauze. The dyed crepe is another shade material which is effective and pretty stretched over a gilt wire frame. One woman, experimenting with materials for this use, has found that a certain grade of pigskin can be treated so that it becomes as pliable as silk and makes charming shades. This maker treats the shade with a tiny fringe of the material.

Embroidered lamp shades are rather new and very lovely. Chinese embroidery is used on Chinese silk, yellow is very attractive with mandarin blue embroidery motifs fastened on by a special glue and mandarin blue tassels finish the decoration.

Single flower lights for the dressing table, or for an odd table, are new and attractive. The flower is made of glass and the wiring runs under the stem and down the back of the furniture so it does not show.

Accordion pleated chintz shades are reasonable in price, varied in color combination, and with lamps having pottery bases they are very pretty. Gold or silver lace shades are novelties that seem to find many admirers. Rather conventional in shapes they go well with the china or porcelain bases.

Parchment shades are leaders, for they are so adaptable to all color schemes. One shade in a black lacquer frame has panels in the natural color with black and gold motifs painted on the panels. The base is of white glazed pottery patterned over an unglazed foundation in geometrical design, but in shape that is suitable for the shade above. A black and gold tassel hangs from the lighting spring.

Jazz Is of Churchly Origin, Says Musician

RUBE WOLF

Last night I was dream-ing, I dreamed that you kissed me

Declares It's Rhythm Is That of Old Hebrew Chants

San Francisco.—"Jazz will live longer than any other music," declares Rube Wolf, brother of Fanchon and Marco, who have done much to keep that same jazz going on the Pacific shores.

"Jazz will live as long as there is religion," he adds. "Its rhythm is the rhythm of the old Hebrew chants. My father was a cantor, and ever since I can remember, I have heard the rhythms which are now called jazz."

Used in Church

"Music was first used in the church for emotional appeal, but the same idea is carried out in our modern jazz numbers. A song which tells the tale of sentiment should not be intellectual but purely emotional."

"Last Night I Dreamed You Kissed Me" is a foxtrot which is very popular just now, and if played in a minor chord, will have all the solemnity of the sacred chants of the Hebrews. In Amer-

ican rhythm it is a modern ballad with a sentimental origin—a conversation overheard between two cash girls back-counter in a department store, in which one relates her dream to another and laments the fact it was 'only a dream.'

Music's Only Home

"We must not overlook the fact that the church in early days was the only place in which music was played, and the development of the Persian harp which is the ancestor of modern string instruments, was all accomplished within the church."

"It has always amused me very much when people who do not understand our modern rhythm speak of the damage this new music is doing to the musical taste of the country. Few of them know that one of the most popular songs in this country was based on Handel's 'Messiah.'"

"The music of the Hebrew church which is probably the oldest church music is very emotional, and I think it is safe to say that a great percentage of the modern dance music is based on these same themes."

Voronoff's Glands Banned In England

London, Aug. 14.—Gland experiments of the Voronoff type are absolutely banned in England. It was announced in the House of Commons by the home secretary, Sir William Joynson-Hicks.

In response to a question, Sir William declared: "No such experiment has been,

or will be permitted in this country."

Dr. Voronoff's experiments were the center of a heated controversy during his recent lecture tour to this country.

Irish Invasion Of Scotland Brings Prayer for Quota

London, Aug. 14.—Is Scotland and the great Scottish race in danger? It would appear that a turning point in the affairs of Scotland has been reached by the fact that a representative Scottish deputation to the British government has protested that the influx of Irish immigrants into Scotland is "changing the whole character of the Scottish people."

The deputation, which represented the Church of Scotland, the Free Church of Scotland, and the United Free Church of Scotland, waited on Sir William Johnston-Hicks, home secretary, and Sir John Gilmour, Scottish secretary, in order to suggest the application of the quota system as the only effective means of limiting the number of Irish settlers to the country's capacity to employ them.

The Irish invasion of Scotland is a problem which has long exercised the minds of Scottish religious and social workers, who see in it a grave menace to the racial qualities of the Scottish people.

It was pointed out by the deputation that between 1901 and 1921 the Irish population of Scotland increased by 30 per cent, and the native Scottish population by only six per cent; also that the Irish represented 25 per cent of the population of Glasgow, and it was computed that they received 70 per cent of all relief funds that are distributed.

The religious leaders involved also pointed out that Scotland is in danger of being both religiously and racially overrun by Irish people who are not of the best type.

Other arguments put forward by the deputation were:

(1) The birthrate of the Irish in Scotland is much greater than that of the natives.

(2) The Irish work for low wages and have a lower standard of living.

(3) Their political sympathies, generally speaking, are communistic.

GOLD BRAID FOR FRENCH ARMY IN KELLOGG PACT

Loud Uniforms To Come Back As Peace Time Colorful Sight

Paris, Aug. 14.—Here is one possible sequence to the adhesion of France to the Kellogg pact to outlaw war—general officers of the French army once more wear red trousers, gold braid, and plumes.

Such finery is admittedly for peaceful display. It was worn before the war. Early in the conflict certain units went into the field in red trousers but the art of camouflage did away with them. Horizon blue and khaki were decreed as most suitable for the grim business of fighting.

Today, ten years after the Armistice, campaign uniforms are still being worn by officers and enlisted men. A general officer is distinguished only by his stripes and the gold leaves on his hat.

But now France and other world powers are preparing to sign the Kellogg pact promising abstention from at least aggressive warfare. Campaign uniforms are no longer imperative for all occasions because, according to the outlawing of war, plus Locarno and the League of Nations to which France is obligated, there will be no more campaigns—at least not so precipitate but that the quartermaster will have time to give out new field equipment.

What must the well-dressed general wear? Even marshals, who rank generals, disagree on this subject.

Marshal Pétain, defender of Verdun, and General Debeney, who plugged the gap at Mondidier would carry on in the horizon blue of 1914-18. Lyantey, and Generals Targe and Nollet, also illustrious chieftains, are reported to prefer ceremonial garb of black coats, red trousers with the alternative of white trousers for summer and colonial service.

The press has a lot to say about the question and appears to side with the advocates of more splendor, criticizing the display of uniforms in the last Bastille Day military review.

"The disappearance of beautiful spectacles hurts our national pride," writes Lambert Franc in the "Figaro." "Let us have uniforms worthy of our role in the world. If not the feathered hat of a corp commander—and why not?—at least epaulettes of gold and silver, ornate belts and other embellishments."

This man moved up on the roof so as to be nearer Heaven when he died. But the wardens of an insane asylum managed to haul him down.

Paul Cerf, the hero of the adventure, has for years been a coal dealer doing business in a Paris side street. He lived on the premises. Recently he suffered some business reverses. These are believed to have been plying on his mind. At any rate Cerf in the middle of the night startled his neighbors by carting his furniture up to the roof.

"I feel that I am going to die soon, and I want to be up here with my possessions when death comes in order to be as near Paradise as possible."

Death has not come John Cerf's way yet. If it does now, it will have to look him up in the cell of an insane asylum.

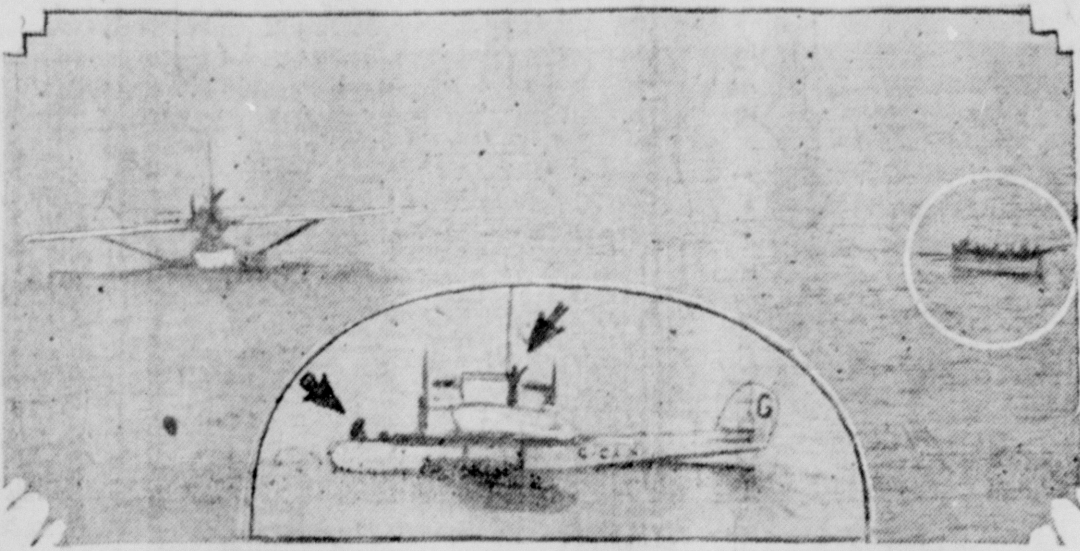

Georges Boucher, young Frenchman of the Saint Denis quarter, has established a new record downing one quart of good beer in fifty-nine seconds. On the night of the glorious fourteenth, all the best beer-drinkers in Paris gathered at a cafe and tried their luck. Boucher was given the first prize—another beer.

Better Clothes And Battle With Barber Would Give Men "It" Says Miss Glyn

Washington, D. C., Aug. 14.—America's young men must spruce up if they would intrigue the interest and win the favor of the modern, twentieth century girl, declares Elinor Glyn, authority on "It" and dean of diagnosticians on "Why Girls Fall in Love."

Madame Glyn is in Washington to supervise the remodeling of her recently purchased home, the famous Georgetown mansion "Dalaclaria," which figured prominently in the social life of a century ago during the gay days of Dolly Madison.

"It" is reflected as much by clothes as by personality," said Madame Glyn, in discoursing upon the shortcomings of America's young men. "Or, expressed in another way, clothes are a reflection of the 'It' in one's personality."

"No woman likes a wilted, slouchy man any better than she likes a wilted, faded flower. Slouchy dress is the index of a spineless personality that will attract the interest of no woman."

"It is not the effect of the

clothes on the woman that is most important; it is the effect of the clothes upon the man himself. A well-pressed suit, immaculate starched collar, a proper tie and a good shine to give the man a sense of his own fitness. They are the best prop to his morale, to his own sense of rightness and ease, without which there is no 'It'."

"This matter of clothes is not merely important in relationships between the sexes. So my advice to the young man who would acquire 'It,' either for success in love or prosperity, is to spruce up."

"I would also urge American men to launch a revolution against their barbers," added Madame Glyn. "The war-time hair cut makes one subconsciously think of convicts or contagious diseases. The hair should be neatly trimmed, yes. It should not be ragged but it should be left full and heavy to bring out the beautiful contours of the head instead of clipped close to an almost naked skull. The prevailing style almost destroys 'It' in men who would otherwise be irresistible."

from the wise and prudent." In the evening the text was: "The rich young ruler," found in Mark 10-22.

DAMASCUS

The church services Sunday were well attended. Rev. D. B. Cope took for his subject, "I am the true vine and my father is the husbandman." Rev. I. L. Kinsey filled the pulpit at the Friends church in the absence of Rev. H. C. Phillips. His text in the morning was taken from Matthew 11:28: "Thou hast these things

OLD GOLD TOWN TO BOOM AGAIN

Jim Cain, of Bodie, Cal., Sees Dream of Years At Last Come True

Bodie, Calif., Aug. 14.—Some day you'll see things boom again, once they begin to mine the rich ore hereabouts."

Jim Cain, leading citizen of the one-time rip-roaring town of Bodie, is seeing his dream come true. The "ghost city" more or less dead since 1921 when mining production dropped from \$23,000,000 in gold and \$4,000,000 in silver in 1881 to \$37,754 in gold and \$15,160 in silver is coming once again into its own.

Population Dwindled Where he reigned as "king" the town now has a population of 75, consisting mostly of engineers and miners.

One of these is E. J. Clinton of San Francisco. Successful business man and owner of the Clinton cafeterias, he has disposed of his restaurant business and moved to Bodie.

With B. W. West, a mining en-

gineer, he leased the dump and surface of the old Standard mine, bought new machinery and today is preparing to grind out the yellow dust.

The Standard has been a "dead one" many years but many a mansion has been built in the state and many a fancy trotter bought with gold produced by this mine.

Other Prospects Still another group of San Francisco capitalists are preparing to begin similar operations at an adjoining mine, while a Los Angeles capitalist has optimistically begun to pump water from a third.

Only the Standard and the Bodie Consolidated continue to grind out gold at a profitable rate in the early days when 50 companies were formed, dissolved and went broke. It is on the latter mine that the Los Angeles men are betting their stake today.

Maybe they'll have to move the body of W. S. Bodie who located the Bodie camp in 1884. If they do, Jim Cain will tell you the town will be booming for years.
